MARINE CORPS AIR STATION IWAKUNI

MCAS IWAKUNI'S STATION B.A.S.H. PROGRAM CONSISTS OF ACTIVE AND PASSIVE METHODS OF BIRD DISPLACEMENT SUCH AS GRASS & LAND MANAGEMENT, DEPREDAATION, PYROTECHNICS, TRAPPING, CLAWS AIR CANNONS AND BIRD RECOVERY.

FOR QUESTIONS, CONCERNS OR INPUT PLEASE CONTACT THE STATION AVIATION SAFETY OFFICER OR THE STATION SAFETY CENTER B.A.S.H. PROGRAM MANAGER.

This BASH poster was created specifically for MCAS Iwakuni, Japan.

Poster was constructed as an informative and educational tool that highlights the biggest threats to MCAS Iwakuni, outlines some of the basic components of the Air Station's BASH program and also illustrates one of the recent Bird Strikes that took place here recently.

Created by Maj Scott Davidson, Airfield Operations Officer with assistance from Mr. Ben Keasler, MCAS Iwakuni Environmental Dept.
